Canadian permanent resident | Authorized to work in Canada without sponsorship

PROFESSIONAL SUMMARY

Frontend software developer with three years of professional and freelance experience building responsive web applications, content platforms, marketplaces, and mobile interfaces. Works with TypeScript, React, Next.js, Angular, React Native, component-based architecture, forms, state, and API integration. Experienced in translating requirements and Figma designs into maintainable interfaces and supporting them through deployment.

CORE TECHNOLOGIES

Frontend TypeScript, JavaScript, React, Next.js, Angular, React Native, Expo, HTML, CSS, Tailwind CSS
UI Engineering Responsive design, component architecture, Figma-to-code implementation, accessibility, localization
State and Forms TanStack Query, React Hook Form, Zod, reusable form patterns, client-side data management
APIs and Platforms REST APIs, Node.js, Express.js, Firebase, Supabase, Payload CMS, Strapi, Stripe, Clerk, Better Auth, Git

TECHNICAL EXPERIENCE

Freelance Full Stack Web Developer | Workana and Independent Clients

Remote | July 2024 - December 2025

- Built responsive customer-facing interfaces for food services, sports analytics, and nonprofit clients, turning product requirements and designs into reusable components and production-ready pages.
- Developed marketplace experiences for Tipstertotal with Next.js, integrating authentication, real-time updates, payments, and backend data from MongoDB and external APIs.
- Created responsive and search-friendly pages for Comidas Bracamonte with Next.js and Strapi, enabling structured CMS content and consistent presentation across screen sizes.
- Delivered the Madres de la Leche interface with Next.js and Payload CMS, supporting content publishing, organizational communication, and Stripe-powered transactions.
- Created a services directory with Angular and TypeScript, integrating Firebase Firestore and Cloud Storage for dynamic content and uploaded assets.

Information Technology and Programming Expert | Innovative Ideas LLC

Remote, Puerto Rico | June 2023 - July 2024

- Contributed to frontend and backend development for the YiiES platform as part of a distributed team using Angular and Express.js.

TECHNICAL EXPERIENCE CONTINUED

IT Specialist | UEB Confecciones Tropicales

Mayabeque, Cuba | January 2023 - April 2024

- Supported business operations through hardware and software installation, network maintenance, and administration of Windows Server and SQL Server environments.

SELECTED PROJECTS

Gas Tracker | github.com/danny1998cuba/gas-tracker

Designed and built an offline-first mobile interface for recording work trips, calculating fuel costs and driver balances, tracking payments, filtering reports, and managing local backups. Implemented reusable form controls, validation, theme support, and query-driven screens.

Technology React Native, Expo Router, TypeScript, Drizzle ORM, SQLite, TanStack Query, React Hook Form, Zod

sonner-next-intl | sonner-next-intl.vercel.app

Created an open-source package that adds internationalization support to Sonner toast notifications in Next.js applications, with reusable APIs and practical integration documentation.

Technology Next.js, TypeScript, internationalization, Sonner, npm

ADDITIONAL EXPERIENCE

Assistant Team Leader | Dollarama

Kingston, Ontario | December 2025 - Present

- Coordinate daily store workflows, resolve customer and operational issues, support inventory processes, and help the team maintain accuracy in a fast-paced environment.

EDUCATION

Bachelor of Computer Engineering | Agrarian University of Havana

Mayabeque, Cuba | 2017 - 2022

- Studied data structures, databases, web development, servers, networking, and Java; built contract management and HR systems during a practicum using Angular, Java REST APIs, and MySQL.

Computational Intelligence Coursework | University of the Amazon

Remote, Colombia | 2022

- Studied machine learning, natural language processing, and neural networks using Python.

CERTIFICATIONS AND LANGUAGES

Certifications Full Stack Open, University of Helsinki, 2025 | IELTS General Training, overall band 7.5, 2025

Languages Spanish, native | English, advanced professional proficiency
